SURNAME	PARISH	PLACE (If not a Parish)	COUNTY Or STATE	COUNTRY	PERIOD FROM	PERIOD TO

Surname: enter each name, including spelling variations, on a separate line.

Parish: only enter parishes in this column; particularly important for more common place names, e.g. "Kincardine" in Scotland. This will normally be the parish where the family worshipped and the relevant records are to be found, not necessarily where the family lived. If you do wish to give a place of residence, use the next column.

Place: use for recording places of residence and places within Parishes.

County and Country: Use the Chapman Codes.

Period: always enter both a start and finish date for your search period. If necessary, it is better if you estimate the range in which you are interested.

Members Interests are published twice a year and available on our website www.csfhs.org.uk
